SIGNED UP	The college has agreed and signed up for the System-Wide integration
IN PROGRESS	Install is in progress at the college
NOT LIVE	The System is not available in Production environment for the users
LIVE	The System is now available in a Production environment and is actively used by the users
DECOMMISSIONED	The college decided to remove the System integration

Application Name	Description
OpenCCC	OpenCCC is the account registration system for the Student Success Suite. Supporting OpenCCC for a District/College is a matter of publishing a link to the service site.
CCCApply - Standard Apply	CCCApply is the service that implements the standard application to college, currently for all Districts and Colleges except CalBright.
Non-Credit Apply	Non-Credit Apply is the service developed by the Tech Center to allow colleges to deploy a standard application to individuals who wish to take a non-credit course.
International Apply	Int'l Apply refers to the service that provides International students with the ability to apply to one of the CA Community Colleges.
CA PROMISE GRANT	The College Promise Grant, is an application service that helps the automate the process of OpenCThe College Promise Gran8the service that provides >>Bf 0 -2.15 TD (OpenCCC )T29C /TD <</M

Application Name	Description
SuperGlue	SuperGlue is the integration Platform as a Service (iPaaS) developed by the CCC System as a way to deliver data to and from applications such as CCCApply to and from other applications such as a College's ERP.
CENIC	CENIC is the non-profit entity that manages CALREN, the California Research and Education Network that spans more than 8000 miles of fiber optic cable connecting 20 million users across K-20 institutions.
C-ID	C-ID or Curriculum ID is the system used by the Academic Senate at colleges to request articulation of their courses to courses taught by other college. This is accomplished by the use of a CID number which is assigned by reviewers using the CID system.
CVC Home College Ready	Once completed, your college's students can take courses on the CVC Exchange, reaching their educational goals faster. Your students will apply directly to the Teaching College and can take up to two (2) CVC Exchange courses per term.
CVC COURSE FINDER	In addition to "Home College Ready"
CVC Cross Enroll Teaching	The student experience is now more automated and equitable with instantaneous cross-enrollment. Instead of completing a full application at the Teaching College, a student's Home College information (including residency) pre-populates the fields of an abbreviated enrollment record, and seat counts and course information are updated in real-time from the Teaching College's SIS. Note: The description above assumes both the Home College and the Teaching College have completed the implementation of Cross Enrollment (Phase 2).
CANVAS	CANVAS, from Instructure, is a Software as a Service (SaaS) Learning Management System (LMS). The service is provided by and funded by the CCCC and is the standard LMS across the system.
Data Warehouse Canvas	The CCC Data Warehouse is capable of storing, at a college's request, all of the student interaction data captured by CANVAS for analysis by college research staff. Colleges have to opt-in to have their data pulled into the warehouse from Instructure's Cloud.
POPETECH ACCESSIBILITY	PopeTech is a company that offers a range of tools designed to test the accessibility of web based content such as that found in most college websites.
EQUIDOX ACCESSIBILITY	Equidox is a name of a software package offered by ONIX Networking that tests PDF documents for Accessibility issues and offers suggestions for how to remediate them.
ZOOM	Zoom is an on-line conferencing tool used by many/most of the community colleges to deliver curriculum in mostly an on-line modality.
